Cutting Systems

等离子坡口切割装置

Plasma

Bevel Cutting Units

等离子坡口切割装置

PKS

- 用于可达 45° 直线坡口切割
- 也适用于垂直切割
- 坡口角度简单设定
- 带有磁吸型割炬挂架

DELTA 回转头

- 基于有史以来最成功的等离子坡口切割头
- 紧凑的设计提供了最大有效工作宽度
- C 轴旋转角度 +/- 450°
- 坡口切割角度 -45° 至 45°

无限回转头

- 最成功的等离子坡口切割头
- 高灵活性和加工效率的复合斜轴系统
- 轻便的结构避免了碰撞的风险与对切割范围的影响
- 无限的 C 轴旋转
- 坡口切割角度 -45° 至 45°

Plasma Bevel Cutting Units

PKS

- For straight line bevel cuts up to 45°
- Also for vertical cuts
- Simple setting of bevel angle
- Integrated collision protection with magnetic torch holder

Skew RotatoR DELTA

- Based on the most successful plasma bevel cutting head ever
- Compact design gives maximum effective working width
- C Axis Rotation +/- 450°
- Bevel cutting from -45° to +45°

Skew RotatoR INFINITY

- The most successful plasma bevel cutting head ever
- Compound Skew Axis System for high flexibility and productivity
- No cumbersome arc segments to risk collision or inhibit the cut
- Unlimited C Axis rotation
- Bevel cutting from -45° to +45°

PKS

Delta 回转头/Skew Rotator Delta

无限回转头/ Skew Rotator Infinity
